THE CONSCIOUS CHOICE

FOR YOUR HOME FOR
OVER 200 YEARS

ZERO TO LANDFILL

We have Zero to Landfill on our process waste and as an entire organisation have less than 1% on all other waste.

MINIMAL TRANSPORTATION

We use clay from the doorstep enabling minimal transportation of our main raw material.

RECYCLED GLAZE

Every year we recycle over 100,000 litres of glaze during the glazing process to efficiently re-use our resources.

RECYCLED CLAY

The areas of land from where our clay is extracted are returned to pasture and landscaped. Because our quality standards are so high, any clay with faults is recycled, which equates to 55 tonnes of raw clay a year.

20 MILLION LITRE WATER CYCLE

Denby has its own water treatment plant and each year we purify and return to the water cycle 20 million litres of process water.

ENERGY CONSUMPTION

Our energy consumption is industry-leading and consistently at least 15% lower than industry targets set.

ENERGY SAVING

We are continually installing energy saving lighting systems and optimising the gas usage in our kilns.

RECYCLABLE PACKAGING

Most Denby is sold without packaging, but where it is requested by customers it is recyclable. Any incoming packaging is recycled and has been sourced responsibly. We are also investigating using alternative materials to create box-fill packing instead of plastic air-fill.

DURABLE & SUPER STRONG

One set can be used everyday and for special occasions, indoors and out, and is safe for use in the oven, freezer, microwave and dishwasher. You can confidently use it to cook, serve and store food, and when you might otherwise use a disposable plate or cup.

STYLED BY LIFE

Every Denby piece has been designed to work in your home – our mugs fit under coffee machines and cereal bowls have been measured to fit two Weetabix side by side. There's detail in every Denby design which is why we're styled by life.

NOT JUST FOR FOOD

From the kitchen and dining room, to the bedroom and bathroom, Denby can be used in every room. The hardy glazes will protect against everyday wear and tear and look stylish and beautiful for many years to come.

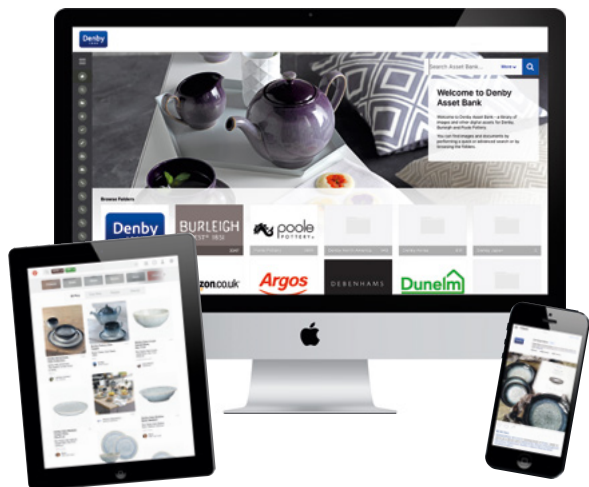

FOOD RECYCLING

We recycle all of our food waste produced in our restaurants and the staff canteen to be turned into energy and all of our cooking oil is reused to produce bio fuel.

A QUICK GUIDE TO MATERIALS AND SELECTING ITEMS

MADE IN ENGLAND STONEWARE

Denby stoneware clay is very strong. It's fully vitrified which gives it strength, durability and chip resistance.

MADE IN ENGLAND PORCELAIN

Similar in strength to Denby stoneware, our Made in England porcelain has a lighter feel and a finer, more translucent body.

PORCELAIN*

Our 'White by Denby' range of porcelain has a cool blue-white colour, is strong and super versatile.

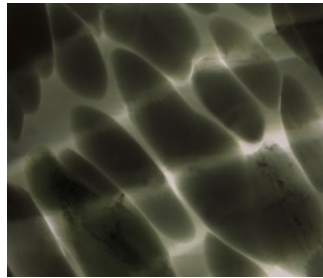

FINE CHINA*

Monsoon fine china is soft cream in colour and is also fully vitrified, so is functional and versatile as well as being elegant.

BONE CHINA*

Denby Bone China has a pure white translucency and is also fully vitrified, so like stoneware it's surprisingly tough.

GLASS*

Much like our stoneware, Denby's glassware is reassuringly robust. Each piece is handmade and designed to sit alongside the tableware ranges or work alone.

CAST IRON*

Denby cast iron cookware is crafted from cast molten iron and enamelled both inside and out for a stunning finish and a classic look. It heats up faster and keeps hotter for longer thanks to a multi layered construction.

ACCESSORIES*

Designs to co-ordinate with Denby ranges or work by themselves. Practical to protect surfaces but beautiful enough to create a stunning table setting.

The majority of Denby products are made in our Derbyshire Pottery.

For some items we also work with specialist overseas suppliers who share our values for quality and craftsmanship – these latter items are marked with *

YOUR GUIDE TO BUYING OCCASIONS

Your customer may be looking for a complete new set of tableware, a set of mugs or bowls or just a stunning one-off piece to use around the home. Here are some tips to help guide your customers:

01 | OCCASION

Ask about their reason for purchasing eg. a full new set for family dining, just a few pieces to top up / mix with their existing sets to refresh their collection, a specific entertaining occasion, a gift, a home decor piece.

02 | COLOUR, SHAPE AND STYLE

Are they looking for contemporary, classic or eclectic. All matching or mixed styles. What style is their kitchen/home. Bold colour and pattern to make a statement / contrast or easy to live with calming neutrals. What sort of gift are they looking for.

03 | FEATURES

What specific features does the customer need. Sizing of items, suitability for the oven and dishwasher, items which are versatile, stack-ability, gift packaging for easy wrapping. It comes in many styles and is tough enough for weekday tea times and is beautiful enough for dinner parties, decorative, gift-able pieces for use around the home.

KEY FEATURES AND BENEFITS OF DENBY STONEWARE

O1 | All Denby stoneware is made in the UK.

O2 | Stoneware clay is very strong and fully vitrified. The surface is made glassy and non-porous which gives it strength, durability and chip resistance.

O3 | It can be used safely in the dishwasher, microwave, in the oven (up to 250°C) and in the freezer for storing foods.

O4 | Each piece of pottery is still expertly glazed by craftspeople, a skill handed down from generation to generation, which makes Denby unique.

O5 | It's taken over 200 years to create the unique glazes, so the recipes are all top secret!

O6 | Launching one tableware range is the result of 24 months of team work from the original design idea through to the range going into full manufacture.

O7 | Each item goes through the kiln at least twice, which makes it super-strong: the first fire is at 950°C for 18 hours, the second at 1175°C for 16 hours.

O8 | It takes approximately 2 weeks from start to finish to create a single item.

O9 | As Denby is designed for living, the designers have built clever versatility features into each piece: the sugar bowl for example can be used as a dipping bowl or ramekin.

O10 | Specially shaped and sized bowls are designed for every meal occasion, from breakfast to Friday night takeaway, dinner parties and everything else in-between.

O11 | Denby has over 20 ranges to suit a variety of styles and interiors.

O12 | We are continually working towards being more sustainable by making positive changes to lessen our impact on the environment. We recycle our clay, glazes and millions of litres of water and every year reduce our energy consumption. We are proudly the first UK tableware manufacturer to be able to claim 'zero to landfill' for all our process waste. In addition, we employ an Environmental Officer to ensure that Denby is constantly looking at ways to improve our sustainable approach.
