WHAT DO WE CONSIDER WHEN DESIGNING BATHROOM PRODUCTS?

DESIGN The Robert Welch Burford and Oblique bathroom fittings and accessories have been designed to be mindful of a wide range of interior decor styles; neither overly modern nor too traditional.

QUALITY There is no better material than 18/10 stainless steel in a steamy bathroom environment, as some lower grade materials can be prone to rust in a short period of time.

FUNCTION The shower baskets have been designed with added functionality - both the frame and the baskets are formed from a single piece of steel (no joins) and the baskets can be easily removed and washed in the dishwasher.

GUARANTEE

Made from the highest quality 18/10 stainless steel, Robert Welch bathroom fittings and accessories have been carefully designed and manufactured to the highest standards. All of our bathroom fittings and accessories are supplied with our 25 year guarantee.

ROBERT WELCH DESIGNS

Robert Welch, one of the most respected British designers of the 20th century, believed that everyone should be able to use beautifully designed products in everyday life.

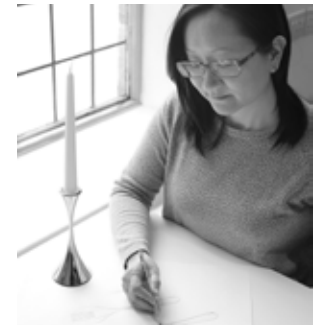

His most important commissions are in collections throughout the world, from the Victoria and Albert Museum and the British Museum in London, to the Museum of Modern Art in New York.

Robert's son Rupert and daughter Alice have been running the company for the last two decades. Under their direction, a talented team of in-house designers continues to create award-winning designs. Confirmation that Robert's original beliefs are at the forefront of the modern company all these years later:

Proud recipients of the 2017 Queen's Award for Enterprise in Innovation.
